

# HP RP7 Retail System, Model 7800

## The elegant powerhouse

Get ready for the next-generation all-in-one retail solution from HP. Sleek, stylish, and able to effortlessly integrate into your current environment, the HP RP7 Retail System can be customized for everything you need and nothing you don't.

## Impressive everywhere you look

Enhance your store image with the modern, space-saving HP RP7, which has all the capabilities of a traditional retail solution and a sleek design that effortlessly fits into retail and hospitality environments. Use it on a counter or mounted on a wall; the unique dual-hinge base supports adjustable tilt and height for maximum comfort.

Sleek, flush-bezel edges (available on the Projected Capacitive displays only) also make the HP RP7 an appealing self-service kiosk that will attract customers and that your employees can't wait to use. Connection points on all four sides of the display let you customize the exact combination of stylish HP retail peripherals (magnetic stripe reader, fingerprint reader, scanner, webcam, or CFD display) you need to complete your solution.<sup>1</sup>

## Performance you can trust

Quad-core 2nd Generation Intel® Core™ processors with Intel® vPro™ Technology (select configurations) deliver hardware-based remote management technologies and a stable, secure, and reliable infrastructure.<sup>2,3</sup> DDR3 RAM technology helps ensure fast application loading and toggling between screens. Choose up to two hard drives or solid state drives with RAID capabilities.

Select a 15-inch or 17-inch diagonal display head, and then customize it with intuitive and familiar projected capacitive touch technology or the flexible navigation features of resistive touchscreen.<sup>5</sup> Intrusion protection helps protect against dust and liquid spills.

Add a sharp customer-facing display (CFD). The HP RP7 10.4-inch CFD Display is perfect for additional advertising and promotional opportunities. The HP RP7 VFD Customer Display offers easy-to-read price and product information.

## Substance beyond style

The HP RP7 is retail-hardened for use in ambient environments up to 40°C. The steel chassis, on-board monitoring and alerts, and environmental and shock testing stand up to the long term wear and tear of retail environments.

The extended product lifecycle helps ensure consistency in your install base, and the three-year limited warranty on the entire solution gives you peace of mind about your investment.<sup>6</sup>

## HP RP7 Retail System, Model 7800—Options<sup>14</sup>

<b>HP Retail Integrated Fingerprint Reader</b> (B0T13AV/QZ672AA)	Eliminates password sign-in hassles and buddy-sign-in and enables additional security for employee authentication and manager approvals/transaction overrides. Requires fingerprint reader-enabled software/application, sold separately.
<b>HP Retail Integrated Single-Head MSR</b> (J1A33AA/J1A34AA)	Maximize available space with the compact HP Retail Integrated Single-Head MSR, which plugs into your retail solution to accept credit cards (select regions), gift cards, and employee ID cards or loyalty cards. <sup>15</sup>
<b>HP Retail Integrated Dual-Head MSR</b> (B0T12AV/QZ673AA)	Enables MSR credit card transactions or loyalty card integration without adding clutter to the retail work space.
<b>HP Retail Integrated Webcam<sup>1</sup></b> (B0T03AV/QZ700AA)	Enables interactive technical support for retail serviceability; supports personalized customer interface with online/remote CSRs in a kiosk setup.
<b>HP Retail Integrated Barcode Scanner</b> (E6N62AV/EILO7AA)	Quickly and accurately reads 1D and 2D barcodes, including driver's licenses and codes from mobile device screens. Flexible design allows retailers to swivel and adjust the scanner. Audio and visual good-read indicators confirm successful reads.
<b>HP Retail Integrated 7-inch Customer Facing Display</b> (F7A92AA)	Give customers a clear view of their transactions and share dynamic content at the point-of-sale with this 7-inch diagonal LCD display. Integrates easily into your retail solution adding video content and graphics to improve the customer experience.
<b>HP RP7 10.4-inch CFD Display</b> (B0T22AV/QZ702AA)	10.4-inch diagonal non-touch monitor perfect for advertising and promotional opportunities. Monitor comes standard as head only. HP Dual Position L6010 Stand (A1X79AA) is available for separate purchase.
<b>HP Retail Integrated 2x20 Display</b> (G6U79AA/G7G29AA)	Give customers a clear view of pricing and product information at the point-of-sale with the HP Retail Integrated 2x20 Display, an LCD customer-facing display that easily plugs into your retail solution.
<b>HP RP7 VFD Customer Display</b> (B0T26AV/QZ701AA)	2x20 customer-facing display offers easily readable price and product information.
<b>HP LCD Pole Display</b> (F7A93AA)	Give customers a clear view of their transactions and share engaging, colorful, dynamic content at the point of sale.
<b>HP RP7 Adjustable Stand</b> (B0T02AV/QZ703AA)	Use the stand for on-the-counter placement of the HP RP7 Retail System
<b>HP RP7 Value Stand</b> (E3A13AV/E5E14AA)	Use the stand for on-the-counter placement of the HP RP7 Retail System.

## HP RP7 Retail Solution, Model 7800

\* Not all features are in all editions of Windows 7. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See [microsoft.com/windows/windows-7](http://microsoft.com/windows/windows-7) for details.

\*\* Not all features are available in all editions of Windows 8.1. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See [microsoft.com](http://microsoft.com).

† The following are not supported by Novell SUSE Linux Enterprise Desktop: HP ProtectTools, Power Management features, Multi-touch capabilities (Projected Capacitive Touch option). Systems configured with Linux do not qualify for ENERGY STAR®.

1. Each sold separately. HP does not support the use of any other standard USB device on the displays beyond the HP Retail Integrated Fingerprint Reader, HP Retail Integrated Dual-Head MSR, and HP Retail Integrated Webcam.
2. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
3. Some functionality of this technology, such as Intel® Active management technology and Intel Virtualization technology, requires additional 3rd party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on 3rd party software providers. Microsoft Windows required
4. Only available for POSReady 2009 and FreeDOS (Not allowed in Indonesia)
5. Not allowed with POSReady2009 or FreeDOS (Not allowed in Indonesia)
6. Projected capacitive technology is available on 15-inch and 17-inch displays; resistive touchscreen is available on the 15-inch display.
7. This device has been certified for Windows 8 as a Specialized PC (SPC). The SPC certification program allows for the certification of commercial devices designed with industry specific features that conflict with the standard Windows 8 multi-touch certification requirements expected of a touch panel. In this case the RP7800 is designed to support Retail Point Of Sale applications which only require single touch (Resistive) or simple multi-touch (Projected Capacitive) features. Please refer to the Display section on page 3 for display specifications.
8. This system is preinstalled with Windows® 7 Pro software and also comes with a license and media for Windows 8.1 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.
9. Certain restrictions and exclusions apply. HP Care Pack Services extend service contracts beyond the standard warranties. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts from date of hardware purchase. To choose the right level of service for your HP product, use the HP Care Pack Services Lookup Tool at [hp.com/go/lookuptool](http://hp.com/go/lookuptool). Additional HP Care Pack Services information by product is available at [hp.com/hps/carepack](http://hp.com/hps/carepack).
10. Above 3 GB, all memory may not be available due to system resource requirements.
11. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of system disk is reserved for system recovery software.
12. Audio input ports are re-taskable as a Line-in or Microphone-in port. External speakers must be powered externally. Multi-streaming can be enabled in the Realtek control panel to allow independent audio streams to be sent to/from the front and rear jacks. This allows for different audio applications to use separate audio ports on the system. For example, the front jacks could be used with a headset for a communications application while the rear jacks are being used with external speakers and a multimedia application.
13. All specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.
14. "Configure to order (CTO)" product numbers ending in AV should be used when configuring the system at the initial point of purchase. "After-market options (AMO)" product numbers ending in AA should be used when adding peripherals after the initial purchase of a configured solution.
15. Internet access required and sold separately.
