

# AllReceipts

The safe and reliable digital receipt solution

## AllReceipts, the FREE Digital Receipt Solution, Available on all Star Micronics TSP100 Thermal Receipt Printer Models

The AllReceipts app is free to download and provides a secure cloud solution in which a digital copy of the printed receipt can be claimed by scanning a QR code printed on the receipt from any Star TSP100 thermal receipt printer models.

Complementing the printed receipt, the customer can access the digital version of the receipt on the app organized by date and by retailer. Star's AllReceipts solution does not require customers to provide an email address or other personal information, eliminating spam and privacy.

The digital receipt solution includes a device management tool providing printer status and operational notifications for retailers. Retailers can set up an "instant" customer satisfaction survey, allowing them to receive real time feedback based on their customer's level of satisfaction at the time of purchase. Retailers can offer AllReceipts to customers with any TSP100 series printer by simply enabling AllReceipts from a Windows driver. For iOS and Android applications, integrate Star's software development kit to enable this free feature into an application.

### AllReceipts Includes:

- ✓ **FREE digital receipt solution**
- ✓ **Device management tool for retailers**
- ✓ **"Instant" customer satisfaction survey**
- ✓ **Store and manage receipts digitally**

### Digital Receipts

Users can save a digital copy of their printed receipt on their preferred mobile device for FREE and anonymously. No email address is required to store and manage receipts digitally. The digital receipts can organize or search by “date or retailer” of choice. Retailers can view analytics base on how many receipts were printed and the quantity of digital receipts claimed

### Customer Survey

The customer survey tools will allow retailers access to an analytics dashboard showing how many customers have claimed receipts and the satisfaction level of the service received base on their survey results.

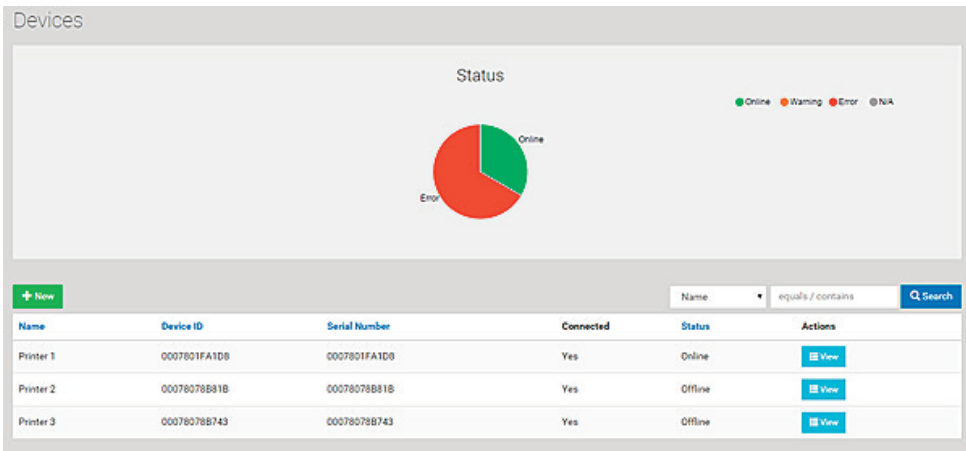

**AllReceipts Includes:**

- Digital Receipts for Customers
- “Instant” Customer Satisfaction Survey
- Device Management Tool for Retailers

### Device Management

The device management tool provides real time status across the installed base of printers including different locations with refreshed error status notification on a comprehensive cloud-based dashboard.
