Cisco® SPA 303

3-Line IP Phone

Entry-level IP phone for business or home office

Highlights

- 3-line business-class IP phone

- Dual switched Ethernet ports, speakerphone, caller ID, call hold, conferencing, and more

- Pre-configured for use with RingCentral

The Cisco SPA 303 is an enterprise-grade SIP phone that features HD voice* technology to deliver quality communications at a reasonable price. This basic IP phone features a PC port and is ideal for use as a desk phone, in a lobby, or in a home office.

Easy to configure, the Cisco SPA 303 has been tested to help ensure comprehensive interoperability with RingCentral. With two 10/100 Ethernet ports and three lines, the phone includes features designed with the business person in mind, including three-way call

conferencing, call transfer, caller ID, and call swap. A built-in high-quality speakerphone, offers clear hands-free conversations. An LCD display screen provides clear call information.

With an optional Power over Ethernet (PoE) splitter, wall-mount kit, and wireless adapter, the Cisco SPA 303 can be easily adjusted to suit your office environment. An included power adapter allows you to power the phone using an AC outlet.

The Cisco SPA 303 offers basic business functionality at a great price that can help you maximize your office communications and productivity.

* HD Voice is available for RingCentral customers in selecting plans
